

# Comfortable and powerful support

Flexible support allows your patient to have an extremely comfortable experience

**High quality environmentally friendly leather**

Hygroscopic air permeability close to the effect of natural leather, soft lubrication, comfortable feel, surface texture can be comparable to natural leather, water does not shrink deformation.

**Adjustable headrest**

Headrest structure with telescopic adjustment function, curved headrest, compared with the traditional flat headrest modeling, can fix the head, prevent left and right shaking.

**Rotating armrest**

The right armrest can be rotated and pressed directly down to provide patients with a sense of security while taking care of the convenience of patients up and down the treatment chair !

**Metal backrest**

The backrest is made of high-quality steel plates and stamped in one go, with extremely strong rigidity.

**Lift chair position**

Wide range of tooth chair lifting height  
Lowest seat position: 500 mm  
Highest seat position: 800mm

Convenient for patients to get on and off the seat, especially for the elderly, children, and patients with unchanged movements

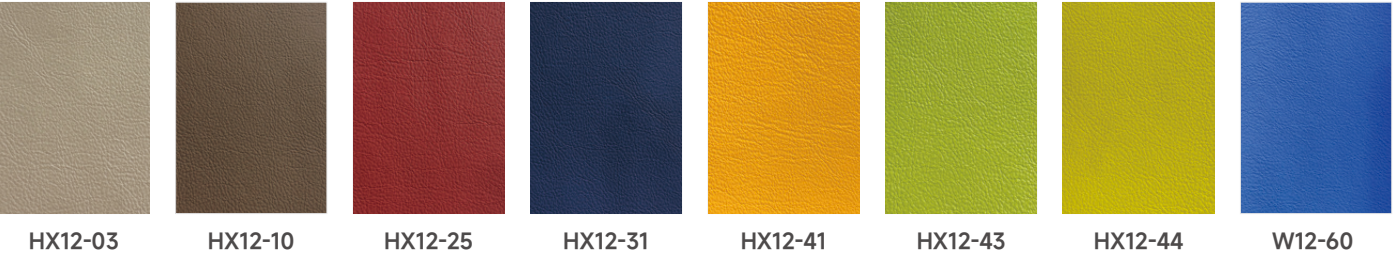

**Large injection molding tool tray**  
The newly designed console has a larger area where more tools can be placed.

Standard Configuration			
24V DC motor	One	Mouthwash heating system	One
Adjustable protective headrest	One	Master control system	One
Electric dental chair control system	One	Assistant operation control system	One
Three way syringe (instrument tray) cold water	One	Multifunctional foot pedal	One
Three way syringe (assistant rack) hot water	One	One click spitting position	One
Imported solenoid valve	One	Nine memory seats	One
Strong suction saliva dispenser	One	Ceramic spittoon	One
Weak suction saliva dispenser	One	High quality environmentally friendly leather	One
Import steam pipe	One	Balance arm belt air brake device	One
LED viewing light	One	LED oral light (Three color adjustable light sensitivity)	One
Water purification filter	One	Water supply quantitative water supply setting system	One
Large injection molding tool tray	One	Dental surgeon's chair	One

Optional parts	Technical Parameter	
Imported four hole high/low speed mobile phone	Supply voltage:	AC220V/50Hz
Oral endoscope system	Motor voltage:	DC24V
Imported or domestic teeth cleaning machine	Water pressure of water source:	0.2Mpa~0.4Mpa
Imported or domestic light curing	Air Pressure:	0.5Mpa~0.8Mpa
